

マレーシア の Sarveshvanr さんの自己紹介  
~Self-Introduction of Sarveshvanr from Malaysia~

Hello everyone, my name is Sarveshvanr.

I am 12 years old, and I am born on September 3rd in the city of Kuala Lumpur, Malaysia.

I have a younger sister who is eight years old.

I am currently in grade 6. I have been a school prefect since 2021.

I have represented my school in various competitions, such as chess competitions, public speaking competitions, essay writing competitions, drone challenge c competitions, and other competitions such as STEM competitions and talent time.

During my free time, I usually like to practice my violin, play video games and read books. My favorite video games are Roblox, EAFC24, Minecraft and Fortnite.

My favorite books are books such as science fiction, thriller and fantasy.

I love these three books. My dream is to become a streamer and an influencer. I hope that you enjoy my speech and I hope I'll get to meet all of you in Japan soon. In the meantime, Arigato and Sayonara!

**APCC for education**
