~Self-Introduction of Junseok from Korea~

Hello. My name is Junseok.

I 'm 11 years old. I was born September 14 th .

I live in Goyang City in Korea.

It is very close to Seoul, about 30-minute drive.

Goyang City has lots of beautiful flowers and
holds international flowers foundation in April every year.

My favorite subject is science because it's really interesting and fun.

I like looking at the stars at night.

I love the constellation. I want to be an astronomer.

I also like to play tennis and soccer on my leisure time.

I can play all kinds of ball sports, except baseball.

Sometimes I play video games too!

This is my first time to go abroad. I want to eat authentic Ramen in
Japan.

I have eaten Tonkotsu Ramen in Korea.

But I want to know what real Japanese Ramen tastes like.

And also I think it would be delicious.

Thank you for listening to my introduction. Bye bye~!
