

台湾 の Gabriel さんの自己紹介
~Self-Introduction of Gabriel from Taiwan~

Greetings!

I'm Gabriel, an 11-year-old from the city of Kaohsiung, Taiwan.

October 20th marks the day when I celebrate another journey around the sun.

My passion lies in the world of biology.

Exploring the intricate world of bugs, bacteria, and viruses makes me feel connected to the vast web of life that surrounds us.

And when it comes to food, nothing beats the unstoppable combo of spaghetti and steak!

All in all, life's a wild Journey; here for every opportunity that comes my way.

Thank you, bye bye~

APCC for education
